Give Them a Chance!

That is to say, your lungs. Also all you breathing machinery. Very wonderful achinery it is. Not only the larger airpassages, but the thou ands of little tubes and cavities leading from them.

When these are clogged and choke with matter which ought not be there your lungs cannot half do their work. And what they do, they cannot do well,

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Bosehee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed us, you may depend

Merit Will Tell. Was never better demonstrated than when "Fryer's Abietene Remwere awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. Fryer is on each, as none are genuine without it.

The Verdict Unanimous.

W. D. Sult, druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of ten years' sianding." Abraham Hare, druggist, Bellville, Ohlo, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the liver, kidneys or blood. Only a half dollar a bottle at S. J. Excitement in Texas. Great excitement has been caused in the vicinity of Paris, Texas, by the re-covery of J. EaCorley, who was so help-less he could not turn in bed, or raise his head; everybody said he was dying of consumption. A trial bottle of Dr. King's consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Lite Fills; by the time he had taken two boxes of pills and two bottles of the Discovery, he was well and had gained in flesh 25 pounds. Trial bottle, of this Great Discovery for Consumption free at S. J. Hodgkinson & Co's.

Gems of Thought.

Ability doth hit the mark when presumption overshooteth and diffi-dence falleth short. I have no respect for that self-boasting charity which neglects all objects of commiseration near and around it, but goes to the end of the earth in search of misery for the pur-pose of talking about it.

Dress does not give knowledge. The real object of education is to give children resources that will en-dure as long as life endures.

He that blows the coals in quarrels he has nothing to do with has no right to complain if the sparks fly in his face.

Resolve to edge in a little reading every day, if it is but a single sen-tence; if you gain fifteen minutes a day, it will make itself felt at the end of the year.

Nurture your mind with great thoughts, to believe in the heroic makes heroes.

Beauty of form affects the mind, but then it must be understood that it is not the mere shell that we admire; we are attracted by the idea that this shell is only a beautiful case adjusted to the shape and value of a still more beautiful pearl within. The perfection of outward loveliness is the soul shining through its crystalline covering.

Those who employ their time illare the first to complain of its shortness; those, on the contrary, who make the best use of it have plenty

and to spare. A wealthy man who obtains his wealth honestly and uses it rightly, is a great blessing to the community. In all things preserve integrity; and the consciousness of thine own uprightness will alleviate the toil of business, soften the harness of ill-success and disappointments, and give thee an humble confidence before God, when the ingratitude of man, or the iniquity of the times, may rob thee of other reward.

Exercise will describe the confidence before God, when the ingratitude of man, or the iniquity of the times, may rob thee of other reward.

Energy will do anything that can be done in this world; and no talents, no circumstances, no opportunitie will make a man without it.

Not Exactly Murder.

"Murder!"
This cry in a well known hotel in
Detroit the other afternoon, proceeding from a room on the third floor,
caught the ears of several chambermaids and created instant consterna-

"Oh! Heavens!"

It was the voice of a man who shrieked the words from room No. 40, and the chambermaids at once sent a messenger to the office with the news that murder was being committed.

"Don't kill me by inches!"

"Don't kill me by inches!"
These words alarmed others besides the chambermaids, and the group of three or four presently grew to a dozen. Who occupied the room? One of the chambermaids recollected of seeing a beetle browed man of general piratical look, accompanied by a woman closely veiled, enter No. 40. Was he killing her?
"Oh! oh! you are killing me!"
It was the voice of the man. The veiled woman had got him in her power, and seemed to be submitting him to some sort of torture. Several of the crowd knocked on the door at once, and one of the chambermaids demanded in a falsetto voice that it be opened at once. There was a ha! ha! from the veiled woman, and ha! ha! from the veiled woman, and

the voice of the man cried out:
"What, do you mock at my
misery!"
A clerk came from the office and demanded admittance in the name of the law, the Continental Congress, and several other things, and after some little delay the door was opened and a woman stood in the opening and asked what was wanted.

"What's going on in there—who's being hurt?"
She laughed her ha! ba! ha! again, and it was echoed by the voice of a man behind her.
"What's all this about? shouted the clear.

the clerk.
"Why, sir," she demurely replied, "I was only pulling a porous plaster off my husband's back!"

Unbalanced Exercise.

The history of the Olympic games has a moral, which may still be useful to the gymnasts of a later and more civilized age. It is this: Exercise should be general, not particular, unless for a particular defect. Socrates, in that republic which nowhere was, nor in all probability will be, said he would not labor like those who run in the race course, that he might make his legs strong while his shoulders and other parts of his body remained weak, not caring for his legs, but so that by exercising all his limbs all might receive a proportional increase in agility and strength. The observation may well apply, not only to a disproportionate exercise of any part of the body in comparison with the whole, but to a disproportionate exercise of the mind in comparison to the body. Philera, of Coe, says an old writer, was very skillful in making hexameters. He was also said to be healthy, but he was so singularly thin that, against danger or injur from a high wind, lest he should as overthrown or carried away by it, he was obliged to fortify his leet by lead. This distressing instance of partial culture may be objected to as apocryphal or a myth, but a walk in the country will teach us the same lesson, though in a less startling and incredible manner.

Humor of the Day.

Masher—"Ah—h. Permit me to escort you, ladies?" Ladies—"Certainly; we're just going to get some oysters."

A Chinese Complexion, hen observed in one of the Caucasia ce, is indicative of bile in the blood race, is indicative of bile in the blood. Who would be yellow when he or she can exhibit the hue of health on check and brow through the aid of Hostetter's Stomseh Bitters, an antagonist at whose onset liver complaint takes flight? Fur upon the tongue, nauses, sick headache, pains under the right ribs and shoulder blade, an unpleasantly odorous breath are remediable with this benign alterative, which does not, like a potent cathartic, drench the intes' ines or, like the mercurical preparations, contaminate the blood. Not only the liver, out the stomthartic, drenon the intestines or, like the mercurical preparations, contaminate the blood. Not only the liver, but the stomach and bowels are aroused, toned and regulated by this fine family medicine, which has won the confidence of the respectable classes, not by startling assertions on its behalf, but by the consistency of the claims made for if with its performance in every instance when tested.

SEPTEMBER 2, 1887

Reno's prosperity has many excellent features. None of the improvements being made are for speculative purposes as understood by those manipulating the California boom. The prosperity com-menced early in the Spring. Men of means came in from other parts and bought properties from which they readily saw a revenue could be derived commensurate with the outlay. They also saw that the town is very conveniently located; that it has bright prospects of becoming a large business center, has a fine climate, exceptional educational advantages, churches of all denominations, and, withal is an exceptionally good place to locate in and establish a business and a home. When Spring fairly opened building commenced, and since then over \$250,000 has been spent in such improvements, with a good prospect of \$100,000 more being expended in the same way before snow flies. The buildings comprise business houses and dwellings. All are thoroughly substantial and of the most improved styles. Several of the residences are unquestionably the finest in the State. When finished they will not be placed on the market at fancy figures, but will become the homes of their owners, many of whom are old-time residents of the town. Sales of lots have been numerous, and in nearly every instance they have been to those who have either commenced to build or contemplate building. Where values have increased they have been confined principally to improved properties. Houses have been in large demand, and those who purchased four months ago can now, if they desire, realize handsomely. The improvements in the neighboring country have kept pace with those in town. Fully 1,000 acres of land within a radius of five miles of Reno have in the mean time been placed under cultivation for the first time. The GAZETTE predicts that Reno's population will be swelled to probably 6,000 within a year-an increase of 25 per cent. Indications point that

CITIZENS of Reno and Secretary Stoddard, of the State Agriculture Society, are endeavoring to arrange for lodgings for the many visitors expected in town during the coming Fair. Many of the rooms of the several Lotels are already engaged, and cots can, and probably will, be arranged and quite a number thus accommodated. Even then many will be obliged to seek lodg-

The GAZETTE has been requested to ask that all who will have lodgings to rent, either by the day or week during the Fair season, report the same to Secretary Stoddard at his office on Virginia street by the 15th instant. Arrangements will be made to have visitors seeking such accommodations, and unable to procure them at a hotel, apply to him. If the number of rooms thus reported warrant it, he will employ a clerk to attend to applicants. An effort is being made to rent from one of the large hotels of San Francisco or Sacramento, 100 cots and furnishings, which, if obtained, will be placed in vacant offices and store rooms.

There is one thing that ought to be borne in mind by those having lodgings to rent, and that is, fancy prices should not be asked. The ruling price ought not exceed 50 cents a night. The visitors should be made to feel that they are wel-

A NEW departure in the education of young women is to be taken by the Public School Commissioners of Louisville. A post-graduate course is to be organized in the girl's high school at that city in which bookkeeping, shorthand and typewriting will be taught. SARATOGA, September 2. The first heat in the single scull race was rowed to-day on Saratoga Lake Ross and Plaisted did not care to exert themselves, so the race was left to the others. Teemer was the first away, followed by Hamm. Rubear and Lee. After a few lengths Lee passed to third place. All the way down to the turn Teemer kept pulling away from Hamm and the interest was centered in these two. Teemer turned the buoy in 44, Hamm in 44:08 and Lee in 52:01. On straightening away for the return, Teemer led by six lengths, which he gradually lucreased and the second turn was made in 9:31, Hamm 9:47 and Lee 10:52. This was the position during the remainder of the race, Teemer keeping a lead of about 15 lengths over Hamm, who was an eighth of a mile in advance of Lee. The race, which was practically a walk over for Teemer, was won in 20:08. Hamm crossed the line 21 seconds later, followed by Lee, whose time was 23:15. themselves, so the race was left to the

WESTERN DISPATCHES

Human Slaughter.

PORTLAND, September 1. The following particulars of the venetta which occurred at Oloqua, Cowlitz county, W. T., are received here The parties are all half-breeds, and had long been spoiling for a fight. All had been drinking and engaged in a general row. The Chehoulty boys came there to kill one Raby, and both attacked him between the hotel and saloon with knives. Joe Legard came to his rescue and shot one of the Chehoulty boys dead, and was himself killed by the other Cheboulty, who severed his jugular completely with one blow of the knife. Raby was not dead when last heard from. Legard's body was found a hundred yards away, but Chehoulty was carried off by his brother. Not a word could be learned from the survivors, and the people in the hotel and saloon claim they did not hear the row or any shooting. general row. The Chehoulty boys

The following explains itself:

D. S. TRUMAN.
WINNEMUCCA, September 1.
D. S. TRUMAN: In reply to your telegram of 31st ult., asking whether the W. B. B. C. will play the Austin nine at Austin on the 11th fost., I am directed to say, that in view of the scurrilous letter which you published in the Reese River Reveille of the 28th ult., over your signature as Manager of the Austin nine, and in view of the further fact that you attempted to undermine the integrity of our pitcher, Mr. English, by offering him \$250 to throw us in case we played a return game, it has been played a return game, it has been decided that hencefort a we will iguore the existence of an Austin nine, as long as it remains under

your management. R. A. Levy, Secretary W. B. B. C.

The game law is "off" now, and soon there will be lively times for the gunsmiths, the doctors and the ducks, rabbits, etc. Now is the season when our thrifty nimiod polson when our thrifty nimited polisheth up his fewling piece and sallieth forth on his dread errand of destruction and carnage. Wee be unto the young duckling who, unable as yet to fly, is driven into a corner, for if he is not killed by a shot from the sportsman's gun, he will be mangled to death by the batt end of the same. But ye birds whose pinions are sufficient to bear you aloft, have no fear, for those who go this early to the hunt couldn't hit the broad side of a barn if it was moving. Their forte is to run down the young ones.

The Powning Scholarship Prize Bishop Whitaker has decided to divide the Powning prize of \$100 offered to the pupil of his School for Girls who makes the greatest progress in her studies during the c gress in her studies during the coming school year, into four prizes for scholarship. Charles S. Marshall and Byron Murray, of Sacramento, have grap-pled with the boom in Butte county. The former has purchased five and the latter 14 acres in Thermalito Colony, near Oroville. A railroad from the Thermalito Colony, opposite Oroville, to the main line of the California and Oregon road has been surveyed. The California Northern road has a projected line across the Feather river, from Oroville to Thermalito.

The Central Pacific Company will issue round-trip tickets from Reno to Sacrameuto and return, good from the 10th to the 24th instant, for \$9 40. This affords a good opportunity for those of our people who so desire to attend the California Fair.

The prosecution witness is J. J. Quinn. He testified that the woman kept a house of ill-fame in Lincoln alley, which is within 400 yards of a school-house; also that she sells cigars without the proper license. In reply to questions as to how he knew she sold cigars, he said he had given Mr. Mershon money to go there and buy cigars, and he also gave an individual designated as H.—t Brown money for the same H—t Brown money for the same purpose. Mr. Quinn is undergoing cross-examination by R. H. Lind-say as we go to press.

OFFICE OF THE ATTORNEY-GENERAL.

OF THE STATE OF CALIFORNIA,

SAN FRANCISCO, March 18, 1884.

HON. E. T. JONES, —My Dear Sir: I have just received your letter of the 15th. Dr. MacLennan has wonderful power. God knows what it is. But he was of great and singular service to me. I would certainly try him if I were in your place. He has worked some wonderful cures within my knowledge. Respectfully,

Charles Crocker, the railroad millionaire, cured of rheumatism in three treatments.

Professor D. Gonzales, San Francisco, was given up by his physician to die of Sapped Vitality and Farsiysis; was carried perfectly helpless to Dr. McLennan and cured; now says: "In less than one month I was enabled to resume my occupation as professor of music and violinist at the Tivoit Opers House, and ever slove (for over three years) have continued in good health, without the slightest return of my weakness or disease."

Dr. Henry Nidae says: "My case was considered incurable by the best physicians, but Dr. McLeonnar restored me the use of my limbs in less than twenty minutes, being paralyzed for over four months."

Dr. J. Wilmhurst, M. D., M. R. C. S. now at Abbottsford House, says: "My hearing is completely restored by Dr. MacLennan's manipulation alone.

Rev. A. C. Glies, Mendocino, Cal., says: "The effect which your treatment had on me is truly wonderful. Altogether I feel like a new man."

Dr. C. E. Davis, St. Helena, Cal., cured of nervous prostration, says: "After four days' treatment I was entirely relieved. I have now a goot appetit and feel well."

Mr. C. W. Kennedy, Cloverdale, proprietor of the stage route to the Geysers; daughter cured of spasms by Dr. McLennan, after the doctors had pronounced her ca e incurable.

M. J. S. Burlingame left Eureka, Nevada, on a stretcher. After taking a jew treatments of Dr. McLennan ne retu ned a well man.

rom the Denver Range Journal.]
It was the day before "agency day" when the rations and presents are issued to the tribe, and everybody about the post was busy helping the agent get ready. We stumbled through the commissary sheds, over bundles of clothes, bags of rations and half-naked papooses, to the slaughter corral. There we found Tom Byrnes, the beef-contractor for the Navajos, with about ten as fine specimens of Navajo manhood as the tribe could produce, up to their elbows in work. Huddled in one corner of the corral were about a dozen terrified steers watching the slaughter of their brethren. The men worked in couples, and worked fast. As they were needed a steer would be driven a little apart from its fellows, and then the contractor would pick up his old Henry rifle, walk into a satisfactory position, and with the crack of his gun the steer tumbled, two Indians jumped him at once, cutting his throat and taking eff the right ear for a tally. As soon as it was safe they commenced skinning, and the quickness with which they accomplished this feat was only equalled by their adroitness in keeping the meat out of the dirt. As soon as a beef was quartered two of the young bucks would seize an end of a quarter and run swiftly into the storehouse in couples, and worked fast. As and runswiftly into the storehouse with it. that filaree grows in abundance in the southern portion of California, and the way that it has got a foothold in this State is by the seed being brought over in the wool of being brought over in the wool of bands of sheep. The plant is very handy and is said to grow better without irrigation than with it. Mr. James Nichols, of Mason val-ley, and owner of the Jew ranch at the upper end of the valley, says that he has noticed that on the bar-ren sandy and rocky bills where ren; sandy and rocky hills, where no water ever reaches except from natural sources, the filaree is gainnatural sources, the filaree is gaining quite a foot-hold; also that in several other places in the valley where the land was supposed to be valueless, this plant is growing very thriftily. If this is the case, it will not be many years before all the barren hills in the State will be pot, Reno. Rolling land, beautifully situated of the particulars. of great value as stock ranges, for the grass spreads wonderfully rap-idly. It is a very hardy grass and it is almost impossible to kill it out by any amount of feeding that cat-tle may do. With this view of the case it is believed that much more land for cattle ranges will be taken

case it is believed that much more land for cattle ranges will be taken up in the next few years, for already Mason valley's wide-awake stockmen are beginning to look for land with a view of taking it up and sowing filaree seed upon it. Therefore we repeat the remark heard the other evening that "it will not be a great while before Nevada's sand hills and sagebrush plains will be valuable as well as

plains will be valuable as well as her fertile valleys."

What Every Farmer Should Know. Every farmer should study and have a general knowledge of the internal structure of the horsehis greatest helpmate at labor. He should know, and probably does, that of all the domestic animals the horse has the smallest stomach, and therefore should be watered and fed the oftenest. He should know, and probably does, that a healthy, well conditioned horse seldom sleeps more than an hour at a time sleeps more than an hour at a time and usually does so with a full stomach. He should know, and probably does, that a horse lays down twice during the night and should have hay or something else to eat between times. His longest and best rest at this season of the year is between the hours of two and four o'clock in the morning. He should know, and probably does, that a horse should seldom be watered immediately after feeding.
